

We, the undersigned residents of the province of Saskatchewan, wish to bring to your attention the following:

- Workers across Saskatchewan face increasing risks of workplace violence, harassment, and psychological injury, especially in public-facing and care-based professions;
- A recent Statistics Canada study showed that Saskatchewan is among the worst provinces for workplace harassment;
- Underfunding, short staffing and limited access to training and support all contribute to unsafe conditions for public sector workers and the Saskatchewan residents we serve;
- And that effective occupational health and safety enforcement relies on strong regulations, proactive inspections, and meaningful consequences for employers who fail to protect workers.

**SPEAK UP  
FOR SAFETY**

We, in the prayer that reads as follows, respectfully request the Legislative Assembly of Saskatchewan:

**Call on the Government of Saskatchewan to declare the workplace health and safety crisis an emergency, and partner with workers and their unions to immediately address violence, hazards, and all threats to the physical and psychological wellbeing of workers.**
